

REU Poster Session

The students who have been participating in our NSF-funded Research Experience for Undergraduates (REU) program this summer will be showcasing their research projects on Thursday, August 9th.

This poster session will highlight the work of REU students sponsored by ECE, CS, and several other departments across the MSU campus. The public is invited. And faculty, staff, and students are invited to drop by, see what the students have been doing, and offer encouragement.

This program is a great opportunity for MSU to reach out to students from other colleges and provide them with the opportunity to engage in a research experience.
