

# College of Engineering Distinguished Professorship Award

**Doug Cairns**

The MSU College of Engineering received numerous nominations for the College of Engineering's Distinguished Professorship Award. The purpose of this program is to recognize and honor the accomplishments of outstanding faculty members in the College of Engineering. COE department heads nominate faculty, without the participation of the nominees and, to the extent possible, without their knowledge as well.

A faculty member named to a COE Distinguished Professorship receives an annual award of \$5,000.00 honorarium per year for five years and is expected to give an inaugural public lecture during the first year of the Professorship. Awardees will hold the title of Distinguished Professor and was announced at the College's Annual Awards Ceremony May 3<sup>rd</sup>, 2017.

Doug Cairns is the coordinator/director of the Aerospace Minor and this years worthy recipient of the College of Engineering's Distinguished Professorship Award!

***Congratulations Doug!***
